

NORMANDS

On all decks, at all times

STS by Normands

Berthing large vessels alongside each other at sea, en route or being anchored, is unusual if not unnatural. Most of captains and crews might be concerned about such manœuvres. It requires sang-froid, determination, and extensive know-how.

We, Normands, are mooring masters experts in ship-to-ship.

We are a bunch of Normands* close friends and seasoned mariners working hand in hand

- in harbors
- at sea
- and offshore.

WE ARE THE NORMANDS

Each of us has been working on all continents.

All of us operate worldwide.

Any of us can be mobilized on the spot.

(*) From Normandy, in French: *Normandie*, from Old French *Normanz*, plural of *Normant*, originally from the word for “northman” in several Scandinavian languages. *Normandie* is a geographical and cultural region in France, northwestern Europe, roughly coextensive with the historical Duchy of Normandy.

We, Normands, offer our customers:

- Ship-to-ship (STS)
- Harbour pilotage
- River pilotage
- Tandem mooring
- SPM mooring
- Pilots training
- Mooring Masters training

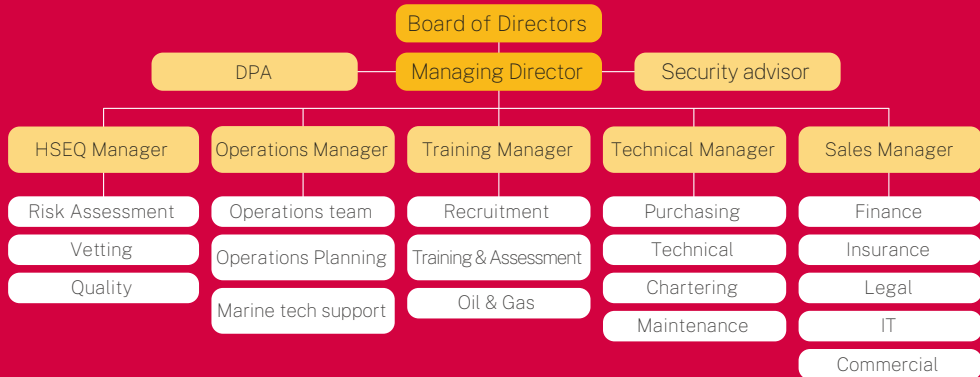

We, Normands protects the interests of customers on all aspects of ship handling including cargo transfer.

We, Normands, offer our guys:

- Full company support
- Appropriate training
- Remote guidance from head office
- Extensive health and repatriation insurance

We, Normands value and care about colleagues as being full partners.

NORMANDS Org Chart

POAC / Superintendents

All transfer operations undertaken at sea involving *MARPOL Annex 1* cargos are co-ordinated by the Person in Overall Advisory Control (POAC) who is the single advisory control for the STS operation.

We, Normands, guarantee premium STS and pilotage services.

Pilotage & Mooring Master Training

The Normands have been intensively and carefully taught and trained by their predecessors.

They value the knowledge they received and enjoy passing it down.

We, Normands have trained and will train our partners and successors.

We, Normands, proudly take full responsibility for the sake of our most demanding customers in the marine, defence, oil & gas, and ports & terminals areas.

We, Normands, will make seafaring endeavour to achieve our tasks but shall always follow strictly the STS Transfer Guide for Petroleum, Chemicals and Liquefied Gases.

Cargo Loss Control

We, Normands, happily work closely with reputable maritime oil and gas companies of superintendence.

We, Normands, and such partners secure any STS on all marine, ship handling and cargo transfer aspects.

Yokohama Fenders

Good fenders are not cheap, cheap fenders are not good.

Normands count on most reliable ship rubber fenders producers.

Transfer hoses

Only the best brands of cargo hoses can be used and their integrity receives our full attention.

We, Normands ensures mint condition and proper certification of fenders and related rigging as part of the whole STS operation.

Certification

Dynamarine

Normands volunteered and proudly signed an agreement for Dynamarine to assist Normands with ship-to-ship consultancy and audit services against OCIMF/SIGTTO/ICS/CDI and applicable OMI regulations.

Partnership

Spectis

Normands volunteered and proudly signed an agreement for Spectis to provide loss control and expediting services as per ongoing good cooperation with Normands in ship-to-ship activities.
